Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	<u>1-21</u>	YES
	Claims		NO
Inventive step (IS)	Claims	<u>1-21</u>	YES
	Claims		NO
Industrial applicability (IA)	Claims	<u>1-21</u>	YES
	Claims		NO

2. Citations and explanations (Rule 70.7)

Reference is made to the following documents:

D1: WO 03094494 A
D2: US 6347224 B1
D3: US 6577717 B1
D4: US 5943657 A
D5: US 6542588 B1

D1 or D2 is regarded as being the closest prior art to the subject-matter of claim 1, and shows:

The subject-matter of claim 1 therefore differs from this known method in that neither D1 nor D2 disclose intermediate conditions e.g. notifications about the rate of fulfilled conditions leading to the rate for users communications.

The subject-matter of claim 1 is therefore novel (Article 33(2) PCT).

The problem to be solved by the present invention may therefore be regarded as the user has limited means to control its usage of services or the calculation run will detect several conditions that affect the result being calculated, but the route taken through the tariff structure might not be available for further analysis.

The solution to this problem proposed in claim 1 of the present application is considered as involving an inventive step (Article 33(3) PCT) for the following reasons:

Claims 2-21 are dependent on claim 1 and as such also meet the requirements of the PCT with respect to novelty and inventive step.
